

OFFICE OF COLLECTION AND DISSEMINATION

27 MAY 1947

MEMORANDUM TO: Deputy Director

Subject: Establishment of Security Standards
for CIG Personnel.

Reference: Deputy Director's memorandum dated 29 April
1947, Subject: "Implementation of ICAFS
Survey."

1. In accordance with paragraph 8 of the Reference a study has been completed of the feasibility of establishing 3 to 5 security standards for CIG personnel.
2. The result of this study is to conclude that separate categories of security investigations would not be warranted. However, it is recognised that certain administrative exceptions to the clearing processes now in effect would be desirable to expedite the obtention of personnel for service in non-sensitive areas and where no access to material classified for intelligence purposes is provided. For example, the problems encountered by FBIB in obtaining promptly the personnel necessary to its operations lends particular point to the revision of certain administrative security practices regarding that Branch.
3. There is enclosed a draft of a recommended operating memorandum. It is believed the enclosure would expedite the procurement of personnel where necessary without lowering existing personnel security standards.

"Signed"

C. E. OLSEN
Captain, U. S. N.
Assistant Director for
Collection and Dissemination
